## Support

Fundament of our team, working on

- Office management
- Web and study material design
- Content management

1+1=3

### Approach

Our approach is characterized by a no-nonsense attitude and a human touch. Practicality and empathy creates an effective approach

- Prioritizing strategy and advisory services to deliver noticeable and tangible results within a short timeframe, enabling organizations and teams to experience immediate impact
- The Reset House team consists of experienced trainers/advisors with business expertise. This professional background ensures an experience that meets the highest standards
- We distinguish ourselves by applying change concepts in an approach that is understandable to everyone

### Quotes

#### General

"Through a combination of consulting, hands-on sessions, and training, the organization has transitioned from a stagnant 'it will be fine' culture to a renewed vitality within 3 months. Not everything is perfect right away, but the intention to improve, and actually taking action to do so, is once again present"

#### Reset

'The program is exceptional due to its remarkable combination of content, high quality, and inviting environment. It stands out as a phenomenal program that offers participants a unique and impactful learning experience'

'The experience that this program provides is transformative and surpasses anything I have encountered before. It offers a unique and profound opportunity for personal growth and development with lasting impact'

#### Cleaner

'Shortly after the assessment and feedback, there was a breakthrough that greatly improved the difficult collaboration with the Holding'

'It's impressive how, with a simple yet 'spot on' feedback, we gained valuable insights and tools for our sales team'

# Value for the client, support inquiries

Requested for the following support.

'We want to further develop the personal leadership of our employees to enhance ownership over their work and careers'

'How can we foster a culture of open communication and shared responsibility to improve organizational performance, stimulate innovation, and increase employee engagement'

'We want to enhance the soft skills of expats and align them with their strong technical capabilities'

'We have employees who feel stuck in their careers and personal lives from various perspectives'

'Support us in engaging our teams in implementing our new vision and the resulting initiatives'

'We are currently in the process of merging different departments and experiencing resistance. Help us navigate through this process'

'Guide our team through their challenges and obstacles to restore proper productivity and collaboration'

Result

We guide people in their behavioral change, resulting in:

- Ninety percent of the participants demonstrating these changes in practice.
- Cultural values come to life within the organization and become visible in the results.
- Teams demonstrating improvement in more professional collaboration and synergy within the chain
- Increased employee and customer satisfaction
